# GitLab Development Kit (GDK)

- Everything you need to get started
- Local development instance

The screenshot displays the GitLab web interface for a local development instance. The browser address bar shows the URL 'gdk.test:3000'. The page title is 'Projects' and it shows a list of 10 projects. The first project is 'Flights / Flight' with 3 stars and 12 updates. The second is 'Gitlab Org / Gitlab Shell' with 9 updates. The third is 'Gitlab Org / Gitlab Test' with 3 updates. The fourth is 'H5bp / Html5 Boilerplate' with 6 updates. The fifth is 'Commit451 / Lab Coat' with 2 updates. The sixth is 'GitLab Instance / Monitoring' with 9 updates. The seventh is 'Flights / test-blank' with 0 updates. The eighth is 'Twitter / Typeahead.js' with 15 updates. The ninth is 'Jashkenas / Underscore' with 6 updates. The left sidebar shows navigation options like 'Your work', 'Projects', 'Groups', 'Issues', 'Merge requests', 'To-Do List', 'Milestones', 'Snippets', 'Activity', 'Workspaces', 'Environments Dashboard', 'Operations Dashboard', and 'Security'. A 'DEV KIT' logo is visible in the bottom left corner of the screenshot.

# Community Forks

- <https://gitlab.com/gitlab-community/meta/>

README.md

## GitLab Community Forks

- GitLab Community Forks
  - About
  - Why
  - How to
    - Request access to community forks
    - Approve an access request
    - Work in a community fork
      - GitLab project specifics
    - Request a new community fork
    - Team member process for creating a new community fork
      - Create and update subgroup
      - Fork the project
      - Update the project settings
      - Container Registry
      - Package Registry
      - Configure pull mirroring
    - Migrate an existing merge request into the community fork
    - Display Meta README on gitlab-community group page
  - Volunteering to support the community forks
  - Tips & tricks
    - Checkout a branch from a canonical project
  - Troubleshooting
    - Failing pipelines

# Developer documentation

- <https://docs.gitlab.com/ee/development/>

The screenshot shows a web browser displaying the GitLab documentation page for 'Contribute to development'. The page has a dark blue header with the GitLab logo and 'Docs' label. A search bar is visible. On the left, there is a navigation menu with categories like Home, Tutorials, Subscribe, Install, Administer, Use GitLab, Develop, and Contribute. The main content area is titled 'Contribute to development' with a 'CONTRIBUTE' badge. Below the title, it says 'Learn how to contribute to the development of the GitLab product.' and 'This content is intended for GitLab team members as well as members of the wider community.' A list of links is provided: 'Contribute to GitLab development', 'Contribute to GitLab Runner development', 'Contribute to GitLab Pages development', 'Contribute to GitLab distribution development', 'Contribute to the GitLab Design System', and 'Contribute to the GitLab documentation'. At the bottom, there is a 'Help & feedback' section, social media icons, and a footer with links to 'Docs Repo', 'About GitLab', 'Terms', 'Privacy Statement', 'Cookie Preferences', and 'Contact'. The footer also includes 'View page source - Edit in Web IDE' and a Creative Commons license.
